What's in this sample

Three real pages from the full packs

Thanks for downloading. This sample has one page each from the **737 Family Identification Charts**, the **737 Spotter's Logbook** and the **Young Aviators Jetliner Activity Pack**. Every fact is checked against a named source, listed on the last page.

PACK	FOR
737-800 Reference Guide	Adult enthusiasts
737 Family Identification Charts	Spotters, adults and teens
737-800 Specification Data Cards	Teens and adults
737 Spotter's Logbook	Plane spotters
Frequent Flyer's Flight Journal & Cabin Guide	Frequent flyers
Young Aviators Jetliner Activity Pack	Children aged 7 to 11

The full packs are at 737-800.aeroplanes.im/shop/.

The first 737-800 took off at 9 a.m. on 31 July 1997 from Renton Municipal Airport, flown by Boeing Captains Mike Hewett and Jim McRoberts, and landed at Boeing Field, Seattle, three hours and five minutes later.

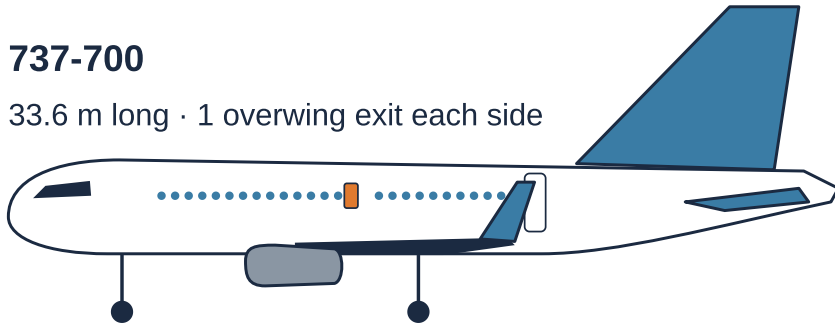

FROM THE IDENTIFICATION CHARTS

Count the overwing exits

The quickest clue from the terminal window

737-700

33.6 m long · 1 overwing exit each side

737-800

39.5 m long · 2 overwing exits each side

737-900

42.1 m long · 2 overwing exits each side

Overwing exits in orange. Our own drawings, same scale as each other.

- The shorter 737-700 has one overwing exit on each side, which is a handy way to tell them apart.
- The 737-800 has two Type III overwing emergency exits on each side of the cabin.
- The 737-900 also has two overwing exits each side, so for a -800 versus a -900 you need to judge the length.
- Lengths, from Boeing's current tables: 737-700 33.6 m (110 ft 4 in), 737-800 39.5 m (129 ft 6 in), 737-900 42.1 m (138 ft 2 in). (checked 29 Oct 2026)

- ☐ EXIT

The full pack has the answer key, plus colouring, a maze, label-the-jetliner, a timeline puzzle and more.

Credits, licence & help

The small print, kept short

YOUR LICENCE

Thank you for buying from REALLYBYTE. This file is for **your own personal use**: print as many copies as you need for yourself and your household. Please don't resell it, re-upload it or share it publicly. For club, school or commercial use, please email info@reallybyte.com.

All drawings, charts, puzzles and layouts are REALLYBYTE's own original work. Aircraft drawings are generic and unbranded: not scale plans, not copied from any manufacturer drawing, and in no airline's colours.

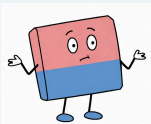

WHERE THE FACTS COME FROM

Every fact in this pack was checked against the source pages below on 29 Oct 2026. Figures that can change are marked "(checked 29 Oct 2026)" where they appear. Where sources give different figures, we show each one with its source rather than picking one.

Boeing news release: Longest Boeing 737 makes first flight (31 Jul 1997):
boeing.mediaroom.com/1997-07-31-Longest-Boeing-737-Makes-First-Flight
EASA: Type-Certificate Data Sheet IM.A.120, Boeing 737, Issue 30 (PDF):
www.easa.europa.eu/en/downloads/7297/en
Boeing: 737 Next Generation (product page and spec table):

www.boeing.com/commercial/737ng
FAA Order JO 7360.1K, Aircraft Type Designators (effective 12 Jun 2025, PDF):
www.faa.gov/documentLibrary/media/Order/FAA_Order_JO_7360.1K_Aircraft_Type_Designators.pdf

Not affiliated with or endorsed by The Boeing Company or any airline, nor by CFM International, the US Navy, EASA or the FAA. Boeing, 737, Next-Generation 737, 737 MAX, BBJ and other names are used only to identify the aircraft, engines and organisations discussed; they belong to their owners. All aircraft pictures are our own generic, unbranded drawings: not scale plans, not copied from any manufacturer drawing, and not in any airline's colours.

NEED HELP?

Useless can't help (he's an eraser, and he's busy rubbing out the bits he got wrong), but we can. Problems with your file, or spotted something we should fix? Email info@reallybyte.com.
